PROJECTS

- **Farmer government aided scheme :**
  Built a comprehensive platform to bridge farmers with government schemes using React.js, Express.js, and MongoDB. The system includes dual login functionality for users and admins. Features for farmers include viewing crop details, exploring schemes, applying for schemes, and tracking application statuses. Admins can manage crop data, post schemes, and approve applications. Utilized React libraries like useState, useEffect, and react-chart to deliver an interactive and dynamic user interface.
